RESUME OBJECTIVE

Software developer with 10+ years of hospitality and business leadership experience. Whether it is workplace dynamics, productivity flow, interpersonal team building within the business, or building trustful, lasting relationships with customers and partners, I find ways to achieve those goals.

EXPERIENCE

General Assembly | December 2019- March 2020
Software Development Fellow

- Areas of Study: HTML, CSS, JavaScript, React, Python, Django, Node, Express, MongoDB, Mongoose, Bootstrap, PostgreSQL, RESTful APIs

- Project Development: wireframing, git and GitHub, Agile/Scrum, Testing: Jest, Mocha, Chai, Supertest

Projects

- Rick and Morty Search: Searchable, API driven React application

- GatherUP: MERN application with CRUD functionality for local events

- GroupLoop: React frontend with Python/Django backend using PostgreSQL

Creative Hospitality, Inc. | May 2009-Present
Business Manager | HR Manager

- Handle all employee hiring, intake, maintenance, payroll, scheduling, and termination of an average of 40-50 employees

- Managed and facilitated the expansion of the business from one DBA to four while growing sales, managing inventory, and handling all state and federal taxes and regulations

- Supervise day to day FOH and BOH industry needs across all DBAs including, but not limited to, increasing sales, establishing familiarity with new products and services, and problem solving

- Manage commercial, workers' compensation, unemployment, and umbrella insurance policies, all invoicing and billing issuance

Putnam County Schools | August 2007- May 2008
English Teacher

- Build and implement curriculum for students across grade levels to give them English language and communication tools to integrate with the larger scholastic environment

- Provide a touchstone and safe environment for at-risk students with few other resources

- Proctored and evaluating testing to determine students' needs and accomplishments in language mastery and integration
